

LIFE AT THE INTERFACE OF SCIENCE + ENGINEERING

lecture series

Thomas R. Cech, Ph.D.

Established through the generosity of UAlbany Distinguished Professor Marlene Belfort and RPI Institute Professor Georges Belfort, the *Life at the Interface of Science and Technology Endowed Lecture Series* is designed to address fundamental questions that require the expertise of both Life Sciences and Engineering to answer. This collaborative lecture series will bring world renowned experts to speak to the campus communities at both UAlbany and RPI.

To support this or other initiatives, please visit www.albany.edu/giving or www.giving.rpi.edu.

These inaugural lectures are part of a two-day collaboration between the University at Albany and Rensselaer Polytechnic Institute (RPI).

Featuring Nobel Laureate Thomas R. Cech, Ph.D.

Distinguished Professor, University of Colorado Boulder
Director, University of Colorado BioFrontiers Institute
Investigator, Howard Hughes Medical Institute

Tuesday, October 25, 2016

University at Albany

“Long Noncoding RNAs and Epigenetic Gene Silencing”

4:00 p.m.

with a pre-reception at 3:15 p.m.

Performing Arts Center, Uptown Campus

Registration required at www.albany.edu/science-engineering or call 518-442-5310

Wednesday, October 26, 2016

RPI

“CRISPR Genome Engineering Gives New Insights about Telomerase and its Role in Cancer”

1:00 p.m.

with a pre-reception at 12:30 p.m.

Center for Biotechnology and Interdisciplinary Studies (CBIS) auditorium

Registration is not required
